

## [ work experience

**Senior Analyst, Technology****Ascension Health**

2017-present

Primary focus on Front End Development within the Sitecore environment. Worked in an Agile environment, using primarily Jira for project coordination on a large all-remote team that rebuilt healthcare.ascension.org from the ground up, utilizing Sitecore Experience Accelerator (SXA).

**Digital Services Specialist****St. Vincent Health, Indianapolis, IN**

2014-2017

Responsible for website design, email marketing design and deployment, management and technical support for stvincent.org, as well as other sites within the St. Vincent organization.

Worked closely with multiple teams and departments to produce pages and content within stvincent.org and multiple microsites. Set up hosting for and migrated microsites from agency to St. Vincent hosting. Managed analytics accounts for stvincent.org and microsites.

Created, coded, and deployed email marketing items as needed in various solutions (ExactTarget / Salesforce, Silverpop (IBM), Streamsend). Implemented corresponding forms / surveys and results as needed via FormStack. Provided technical support as needed for various teams (Digital Services, Creative Services, Marketing).

**Web Designer****MillerWhite Marketing, Indianapolis, IN**

2011-2014

Responsible for website design, email marketing design and deployment, management and technical support for sites and client needs, email and web hosting.

Designed sites ranging from static CSS / HTML to open source database-driven sites, with full content management system (CMS) solutions. Ensured sites were code compliant, and configured for effective SEO.

Implemented hosting, SSL certificates, Google Analytics and Google Webmaster tools.

Worked closely with clients throughout development process, from initial contact to completion / launching of site. Was point of contact for technical support or site issues / maintenance requests.

Balanced a workload of 10-15 clients and 20-30 projects at a time.
